**Eric T. Truelove, P.E.**  
**GGA® NC, SI, CIEB & GP**  
**LEED® AP BD&C**

Eric Truelove has been a consultant in the energy and construction industries since 1989. His specialties include mechanical design, sustainable development, energy modeling, life-cycle cost analyses, technical communications, and building commissioning. He has served as an engineering consultant, commissioning authority, and lead design engineer for commercial, industrial, and institutional facilities located across the country. His work has been published by AIA Wisconsin, Environmental Design + Construction, eco structure, MetalMag, the International Facility Management Association (IFMA), the Electric Power Research Institute (EPRI), and Portland Energy Conservation (PECI).

Eric has participated on the following committees:

- Dane County Council on Climate Change - Buildings Working Group and Finance Group
- American National Standards Institute (ANSI)-Green Building Initiative (GBI) Standards Development Committee
- ANSI Green Building Standards Development Subcommittee on Site Issues
- Governor's Green Building Guidelines Committee, State of Wisconsin
- Daylighting Advisory Committee, Energy Center of Wisconsin
- City of Fitchburg Green Tech Sustainability Task Force
- IFMA Representative, Green Design Education Initiative, International Interior Design Association
- Lawrence Berkeley National Laboratory Labs 21 Environmental Performance Criteria

Mr. Truelove is a Registered Professional Engineer in Wisconsin, Minnesota, and Arizona; a Green Globes® Assessor (GGA); and a Leadership in Energy and Environmental Design® Accredited Professional with a Building Design and Construction Specialty (LEED AP BD&C). He has participated on over 50 LEED and over 100 Green Globes projects. Eric is the Founding Principal of Green Building Resources LLC, a consulting firm providing engineering analysis, design, and commissioning for commercial, institutional, and industrial buildings. He can be reached by email at [eric@greenbuildingresourcesonline.com](mailto:eric@greenbuildingresourcesonline.com) or by phone at 608-332-8444.
